Reply to the attention of:

Mr. Andrew Anson  
President  
Superchute Ltd

Dear Mr. Anson:

This is in response to your November 5 letter requesting a statement of compliance from the Occupational Safety and Health Administration (OSHA) for your Scafnet debris netting.

As you know, OSHA does not approve nor endorse products. The variable working conditions at jobsites and possible alterations or misapplication of an otherwise safe product could easily create a hazardous condition beyond the control of the manufacturer. However, we have reviewed the product data enclosed with your letter and it appears that if the Scafnet fine mesh debris netting is properly installed, the user would be in compliance with 29 CFR 1926.451(a)(6).

If we can be of any further assistance, please contact either Mr. Roy F. Gurnham or Mr. Dale Cavanaugh of my staff in the Office of Construction and Maritime Compliance Assistance at (202) 523-8136.

Sincerely,

*Thomas G. Buckley for*  
Patricia K. Clark, Director  
Directorate of Compliance Programs
