SCAFNET™ DEBRIS NETTING

Superchute® offers 8 sunlight resistant weaves of Scafnet®

- Use Scafnet® to contain and catch light debris falling from scaffolds, bridges, and buildings under construction
- Hundreds of rolls in stock at all times available for immediate shipment
- Many sizes available
- Each roll is individually bagged
- All Scafnet® models can be quickly cut to size without fraying
- Disposable nylon quick-ties allow for rapid Scafnet® installation
- Install bands of Scafnet® from top-to-bottom or left-to-right, according to your needs
- Meet the following OSHA requirement: **OSHA 1926.451 (h)(1) Scaffolds: "Falling Object Protection"**

ACCESSORIES

Quick-Ties

- Use our Cable Ties to attach Scafnet® to scaffold frames, fences, building structures, etc.
- We carry different performance Cable Ties from standard to extra heavy duty
- We carry single use regular as well as release-reusable ties

Deck Disks and screws

- Large robust metal disc for anchoring Scafnet® to a flat surface
- Three concentric rings of 6 eye hooks. 18 Eyehooks grip the membrane without initiating tears, and are easier to handle than barbs
- High ribs and the extruded center hole provide increased strength
- 2 Fasteners: HILTI HUS-H Heavy Duty Anchor Screw & Light Duty Tapcon Screw Fastener

Superstitcher

- For joining 2 or more lengths of Scafnet®

Lightweight Hooks

- Superchute® alloy clips are very useful for jobs where they will not be subjected to heavy loads like the attachment of debris netting to a guide wire.

CUSTOM ORDERS

Scafnet® Panels with Hems & Grommets

Bulk Roll Orders

Rope Nets

Vinyl Tarps with Hems & Grommets

EXCELLENT DEBRIS & DUST CONTROL
